

# TVKOMPACT

## The New Baby Crossover is the TVK Touring Van Kompact

The Vista RV Touring Van Kompact is an innovative Caravan/Campervan that ticks all the boxes.

The TVK is built on the same chassis and suspension as the bigger Crossover. Performance is as impressive as its big brother.

The TVK is a shorter version of the Crossover and fits in smaller areas. It has the same queen-size bed as the Crossover but without the rear kitchenette there is plenty of storage under and beneath the seats.

It still has the same aerodynamic shape as the Crossover, but is more Kompact.
